

MISSION STATEMENT

Our first responsibility is to the environmental well-being of the companies and their employees. The sensitive nature of our industry demands only the highest standards of environmental protection, in which we are pleased to participate. We strive to develop and offer economical, environmentally friendly solutions for unique waste streams thus creating various niche markets within the environmental industry.

The company's goal is that of multi-faceted success and we will strive to meet this goal while considering:

1. The effect of our services on the health and well-being of our customers and our staff
2. The impact that our business practices and choices will have on the environment
3. The high quality of attitude, fairness, understanding, and generosity between management, staff, customers, and vendors.

Awareness of all these factors and the responsible actions that result will give our efforts a sense of purpose and meaning beyond our basic financial goals.
